September 2024

September is the ninth month of the year in the Julian and Gregorian calendars and was the seventh month before January and February were added. It is considered the first month of autumn in the northern hemisphere, although the equinox does not take place until the end of the month. Because most farmers begin to reap their crops in autumn, September was called "harvest month" in Charlemagne's calendar.

Weather or Not

Summer ends and autumn begins on September 22, 2024, in the northern half of the world. However, September days can still be very warm and sunny. The average September temperature in Miami, Florida, is 82°F/27°C. In Acapulco, Mexico, it is about 89°F/32°C in September. If you want a "cool" place to visit this month, Quebec City, Canada, on average, is 67°F/19°C, and Oslo, Norway, is a chilly 53°F/12°C.

What's Lucky in September?

Lucky Color: Yellow
Lucky Animal: Dolphin
Lucky Letters: K and S
Lucky Day: Wednesday
Lucky Plant: Corn
